### Substance Accounting

Substance:	Nickel and its compounds
CAS Number:	NA - 11
<p>Has there been a change in the method or combination of methods used to track and quantify the substance during the previous calendar year? If yes, describe the change and how the change will affect the tracking and quantification of the substance.</p>	
	No
<p>Was there a significant process change at the facility during the previous year, specific to this substance?</p>	
	No
<p>Were there any incidents out of the normal course of events during the previous calendar year that affected the results of tracking and quantification of the substance? If yes, explain how tracking and quantification results were affected.</p>	
	No
On a facility-wide basis:	Amount      Units
Amount that entered the facility as the substance itself or as a constituent of another substance:	>10 to 100      Mg
The amount of substance that was created:	0.0000      Mg
The amount of substance that was contained in product:	>10 to 100      Mg
<p>On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at <a href="http://www.ec.gc.ca/inrp-npri/default.asp?lang=en">http://www.ec.gc.ca/inrp-npri/default.asp?lang=en</a></p>	

### Comparison of Annual Reported Amounts

Substance:	Nickel and its compounds			
CAS Number:	NA - 11			
On a facility-wide basis:	2015	2014	Difference	
Amount that entered the facility as the substance itself or as a constituent of another substance:	Mg	Mg	Mg	
The amount of substance that was created:	>10 to 100	>10 to 100	>10 to 100	81.3%
The amount of substance that was contained in product:	0.000	0.000	0.000	0%
	>10 to 100	>10 to 100	>10 to 100	61.8%
<p>On-site releases from the facility to air, water and land, as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at <a href="http://www.ec.gc.ca/inrp-npri/default.asp?lang=en">http://www.ec.gc.ca/inrp-npri/default.asp?lang=en</a></p>				

## Annual Progress Report - Calendar 2016

Substances for which toxic substance reduction plans have been prepared:

Substance	CASRN
Nickel (and its compounds)	NA - 11

### Plan Objectives

Weber Manufacturing Technologies is unable to reduce the use of Nickel and its compounds as it is an integral component of the nickel moulds produced by the facility via a Nickel Vapour Deposition process. However, we will ensure the responsible management and use of this substance that minimizes significant adverse impacts on human health and the environment.

### Toxics Reduction Progress

Variations in the reported quantities are noted in the amount of nickel used, contained in product and recycled. In the case of quantities used, contained in product and recycled the variation is due to the decreased production rate at the facility.

### Plan Implementation Progress

There were no reduction options identified in the reduction plan for the above noted substance that were identified as being both technically and economically feasible. As such, there were no timelines presented in the reduction plan for this substance. However, Weber Manufacturing Technologies will continue to explore and investigate potential reduction options as they arise as part of their sustainability program.

As there were no anticipated reductions noted in the plan for the toxic substance noted above, there were no reductions of the toxic substance during the reporting period that would be attributable to any reduction plan.

## Certification Statement

As of May 26, 2017, I certify that I have read the report on the toxic substance reduction plan for Nickel (and its compounds) and am familiar with its contents and to my knowledge the information contained in the report is factually accurate and the report complies with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.

The original version of this report is signed off by: Highest Ranking Employee:

I, the highest ranking employee, agree with the certification statement(s) above and acknowledge that by checking the box I am electronically signing the statement(s). I also acknowledge that by pressing the 'Submit Report(s)' button I am submitting the facility record(s)/report(s) for the identified facility to the Director under the Toxics Reduction Act, 2009. I also acknowledge that the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 provide the authority to the Director under the Act to make certain information as specified in subsection 27(5) of Ontario Regulation 455/09 available to the public.
